### **Claim Rejections—35 U.S.C. 112, Second Paragraph:**

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 7 specify “fundamental units performed by,” “performing identification and decomposition of fundamental units,” and “abstracting the fundamental units to packet processing into the software objects.” The meanings of these expressions are unclear and the specification nowhere defines “fundamental units.” Claims 2-6 and 8-12 depend on claims 1 and 7 and are therefore similarly rejected.

Claims 13 and 17 recite the limitation “the directed graph of software objects.” There is insufficient antecedent basis for this limitation in the claims. Furthermore, the meaning of “software object linked together to form a directed graph of packet flow” is unclear. Claims 14-16 and 18-21 depend on claims 13 and 17 and are therefore similarly rejected.

### **Conclusion**

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bonn, Hsu et al., Virtanen et al., Mahler et al., Aukia et al., and Milliken et al. are cited to show the state of the art.
